WITH THE HAMS

The boys from W9HHX will be right in there pitching for national honors in the annual "Field Day" contest sponsored by the American Radio Relay League, June 24 to 25. Amateurs everywhere move their equipment out "into the field" and try to contact more amateur stations than anyone else does.

The "swap table" at the last meeting turned into an auction when Elton Stolberg, W9IWT, took over as auctioneer to dispose of the last of the boxes of valuable radio parts and other equipment.

Wilbert Witte, W9FSU, qualified in the recent Armed Forces Day 25 words per minute code proficiency contest, and recently received his class A amateur license. Congratulations, Wilbert.

At the meeting of May 22, nominations for new officers were made, prizes were given, and refreshments were served in the Shack.
